A.Introduction

1) Aims and Scope:

Sociology is the scientific study of society, social institutions, social relationships, and human organization. The Sociology faculty at UC Merced make up a vibrant and collegial intellectual community, marked by outstanding scholarship and participation in interdisciplinary communities of inquiry. Our program fosters scholarly excellence in Sociology, with a specific focus on social inequality, organizations and institutions, and politics. Our program is nationally and internationally recognized for its high quality scholarship, graduate training, and contributions to the university and community. Students are taught state-of-the-art research design methods and conceptual models for carrying out independent research. The full-time program leads to the degree of *Doctor of Philosophy in Sociology*. Ph.D. students have the option to obtain a *Master of Arts in Sociology* degree, either en route to a Ph.D. degree (non-terminal), or in lieu of a Ph.D. degree (terminal) if a student exits the graduate program prior to fulfilling the Ph.D. requirements. The program's overarching goal is to convert students from consumers of sociological knowledge to independent, expert producers of social research.

The UC Merced graduate program in Sociology is distinctive in several ways. First, it provides intensive mentoring to graduate students, with personalized attention given to small cohorts of accepted students. Students are matched with a faculty mentor immediately upon entrance into the program, and the program curriculum includes small seminars as well as an intensive writing course to facilitate independent research and the preparation of journal articles. Second, our program offers a unique set of substantive foci within an interdisciplinary environment. Sociology faculty study a combination of topics, such as race, health care and education that are especially relevant to California's Central Valley, the state and the nation.

Our program includes opportunities to participate in interdisciplinary research projects, as well as informal and formal seminars from across the university. Finally, the program is designed to train students in research careers in both higher education and public and private agencies outside of academia. The American Sociological Association (ASA) faults graduate programs in sociology for failing to prepare students for careers outside of academia. Our program provides training on a range of substantive topics and research methodologies that will provide an excellent foundation for careers in academia and as researchers.

2) Admissions Requirements:

Consideration for graduate group admission requires a bachelor's degree, three letters of recommendation, official transcripts, GRE scores, TOEFL or IELTS score (if applicable) and submission of the graduate online application with fee by the stated admission deadline. A minimum GPA of 3.0 is required. Admission decisions are made on a case-by case basis. Meeting some or all of these criteria does not guarantee admission, but merely eligibility. The decision to recommend admission to the Vice Provost and Dean of Graduate Education will be made by the Graduate Group

Admissions Committee on the basis of available space and the competitiveness of applicants compared to the eligible pool.

b) Deficiencies:

Coursework deficiencies should be made up by the end of the first academic year following initial enrollment by earning a letter grade of “B” or better.

3) General Committees:

a) Executive Committee:

The Executive Committee shall, in consultation with the faculty, determine and implement policy for the Group. The Executive Committee shall consist of three members (the Graduate Group Chair plus two members, appointed by the Grad Group Chair in consultation with the faculty). The Executive Committee makes appointments to the Admissions Committee and Education Policy Committee for the Grad Group.

b) Admission Committee:

The Admissions Committee is made up of three faculty members, at least one of whom is a member of the Executive Committee (Chair), and who appoints two additional members, in consultation with the Executive Committee. The Admissions Committee determines criteria for assessing student applicants, including developing a rubric for scoring (excellent, very good, good, fair, poor, based on information provided to us on the online admissions tool, which includes but is not limited to undergrad college and gpa, grad college (MA) and gpa, interests, fit, and faculty mentioned). The Admissions Committee meets at least once to rank students and makes recommendations to faculty; final selection is made by Admissions Committee in consultation with faculty. The Admissions Committee is responsible for sending the final list of recommended admits to the Dean of Graduate Studies and is also charged with the recommendations/allocation of intramural financial assistance, fellowships, and awards for new and continuing students.

c) Education Policy Committee:

The Education Policy Committee consists of several ad-hoc committee members charged with establishing and maintaining documentation on the Sociology Graduate Group curriculum. The committee prepares and executes all reviews of the Sociology Graduate Group program, including the seven-year review, WASC substantive changes, and other evaluations specified in this proposal. In consultation with the program faculty, the Education Policy Committee coordinates and documents proposed changes in programmatic requirements of the Sociology Graduate Group program, and presenting proposed changes to the voting body, Graduate and Council and WASC as needed. All changes to the programmatic requirements of the Sociology Graduate Group curriculum and associated requirements must be approved by vote of the eligible Graduate Group Faculty.

B. Master’s Degree Requirements

The master’s degree is attained by: Plan I, the Thesis option, described in the [UC Merced Graduate Policies and Procedures Handbook](#).

1) Degree Plan I-Thesis:

This plan requires a minimum of 4 semesters of residence, 48 units of graduate coursework, at least 20 of which must be earned in 200-series graduate-level courses exclusive of credit given for thesis research and preparation. A cumulative GPA not lower than 3.2 is required. A “pass” outcome by the M.A. Committee is required.

- a) **Program Learning Outcomes (PLOs):** Provide the Program Learning Outcomes for Degree Plan I.

PLO #1 Core Theoretical Knowledge	PLO #2 Research Methods	PLO #3 Communicate
--------------------------------------------	-------------------------------	-----------------------

b) **Course Requirements - Core and Electives (total # units)**

Discuss the course requirements. Include a tabular list with the following information:

i) **Core Courses (total 28 units)**

Indicate course number, course name, and number of units

Course Number	Course Name	Units
Soc 200.	Sociological Theory	4
Soc 201.	Professionalization Seminar	4
Soc 205.	Graduate Writing and Publishing Seminar*	4
Psych 209.	Pre-Statistics (equivalent)	4
Soc 210.	Grad Stats 1	4
Soc 211.	Grad Stats 2	4
Soc 215.	Graduate research methods	4

ii) **Elective Courses (total 20 units)**

Indicate course number, course name, and number of units

Course Number	Course Name	Units
Soc 2XX	Sociology Elective	4
Soc 2XX	Sociology Elective	4
Soc 2XX	Sociology Elective	4
Related Field 2XX	Related Field Elective	4
Related Field 2XX	Related Field Elective	4

iii) **Summary:**

24 units of core coursework and 20 units of participatory seminars are required

for a total of 48 units. Full-time students must enroll for 12 units per semester including research, academic and seminar units. Courses that fulfill any of the graduate group course requirements may not be taken S/U. Once course requirements are completed, students can take additional classes as needed, although the 12 units per semester are generally fulfilled with a research class (provide course number) and perhaps seminars.

c) Advancement to Candidacy:

Before advancing to candidacy for the Master's degree, a student must have satisfied all plan requirements set by the graduate program and must have maintained a minimum GPA of 3.2 in all course work undertaken. Normally, students advance by the end of the fourth semester. The student must file the appropriate paperwork (Application for Advancement to Candidacy for the Master's Degree and Conflict of Interest Form).

d) Thesis Requirements:

Thesis committee meetings: The candidate and advisor should meet at least once a year with the other members of the thesis committee to discuss progress and any changes in research objectives.

Thesis: Research for the Master's thesis is to be carried out under the supervision of a faculty member of the program and must represent an original contribution to knowledge in the field. The thesis research must be conducted while the student is enrolled in the program. The thesis is submitted to the thesis committee at least one month before the scheduled defense. All committee members must approve the thesis in its entirety and sign the title page before the thesis is submitted electronically to the Graduate Division for final approval. Should the committee determine that the thesis is unacceptable, even with substantial revisions; the program may recommend the student for disqualification from the program to the Vice Provost and Dean of Graduate Education, based on unsatisfactory progress, in keeping with the [UC Merced Graduate Policies and Procedures Handbook](#).

The thesis must be submitted by the deadline in the semester in which the degree is to be conferred. Those students who complete requirements and submit thesis after the end of the semester and prior to the start of the subsequent semester will earn a degree for the following semester, but will not be required to pay fees for that semester. Instructions on preparation of the thesis are available in the UCM Thesis and Dissertation Manual and a schedule of dates for filing the thesis in final form are published on the Graduate Division website in the calendar and deadlines section.

2) Degree Plan- Professional Masters

Policies and Procedures for Professional Masters programs are in development at the campus level.

3) Advising Structure and Mentoring:

The graduate advisor is the faculty member who supervises the student's research and thesis. The Graduate Advisor, who is appointed by Graduate Group Chair, is a resource for information on academic requirements, policies and procedures, and

registration information until the Thesis Committee is formed. The Graduate Group Staff assists students with identifying appointments and general university policies. The Mentoring Guidelines can be found at the following link [UCM Mentoring Guidelines](#).

4) Master's Degree Committees:

a. Thesis Committee:

The Thesis Committee is comprised of three faculty members. The student, in consultation with his/her graduate advisor and graduate group chair, nominate two additional faculty (in addition to the advisor who serves as Chair) to serve on the Thesis Committee. These nominations are submitted to the Graduate Division for formal appointment in accordance with Graduate Council policy. A committee of three faculty members shall approve the subject and pass on the content of thesis.

5) Sources of Funding: Funding includes opportunities for Teaching Assistantships as well as other funding opportunities as offered by Graduate Division and the graduate group (e.g., via competitions run through the Executive Committee), external funding opportunities, and individual professors.

C. Doctoral Degree Requirements

1) Program Learning Outcomes (PLOs):

PLO 1. Synthesize, critique, apply, and extend major sociological theories.

PLO 2. Critique and evaluate qualitative and quantitative sociological research methods.

PLO 3. Design and conduct independent research that makes an original contribution to sociological knowledge.

PLO 4. Synthesize, critique, and identify extensions to previous empirical and theoretical work in at least two substantive areas of the discipline.

PLO 5. Communicate effectively, both orally and in writing, about sociological theories, arguments, methods, and concepts.

PLO 6. Demonstrate proficiency in the professional skills needed to participate in the intellectual and organizational aspects of sociological careers.

Teaching Assistantships				I/D/M	I/D/M	I/D/M

2) Course Requirements - Core and Electives (total 60 units)

The Sociology Graduate Group faculty has established a minimum requirement of 15 courses of graduate coursework for the Ph.D. (4 units each for a total of 60 units). All of these courses must be taken for a letter grade. In accordance with University of California policy, a minimum of four semesters in academic residence is required prior to awarding the Ph.D.

a) Core Courses (total 32 units)

Indicate course number, course name, and number of units

Course Number	Course Name	Units
Soc 200.	Sociological Theory	4
Soc 201.	Professionalization Seminar	4
Soc 205.	Graduate Writing and Publishing Seminar*	4
Psych 209.	Pre-Statistics (equivalent)	4
Soc 210.	Stats 1	4
Soc 211.	Stats 2 2 Analysis	4
Soc 215.	Graduate research methods	4

Soc 212, 216 or 217	Advanced Research Methods	4
---------------------	---------------------------	---

b) Elective Courses (total 28 units)*

Indicate course number, course name, and number of units

Course Number	Course Name	Units
Soc 2XX	Sociology Elective	4
Soc 2XX	Sociology Elective	4
Soc 2XX	Sociology Elective	4
Soc 2XX	Sociology Elective	4
Related Field 2XX	Sociology Elective	4
Related Field 2XX	Related Field Elective	4
Related Field 2XX	Related Field Elective	4

c) Summary:

32 units of required courses and 28 units of electives are required for a total of 60 units. Full-time students must enroll for 12 units per semester including research, academic and seminar units. Courses that fulfill any of the program course requirements may not be taken S/U. Research hours (for a letter grade) may be included towards the seven substantive courses (e.g. in preparation for Qualifying Exams, research with advisor for MA, etc.), but should be limited to 12 units of the 60 unit total (additional reading/research hours towards the seven elective courses require faculty advisor and graduate chair approval).

Once course requirements are completed, students can take additional classes as needed, although the 12 units per semester are generally fulfilled with research classes and seminars. Per UC regulations students cannot enroll in more than 12 units of graduate level courses per semester.

*Note: All of the above courses are 4 units, with the exception of Soc 201, which is a 2 unit course required during each of the student's first two semesters on campus.

3) Special Requirements: N/A

a) Teaching Requirement: Sociology Graduate Group requires all graduate students pursuing the Ph.D. to acquire teaching experience at the post-secondary level under faculty supervision. This requirement is satisfied by appointment as a Teaching Assistant or Teaching Fellow in undergraduate courses. Refer to Academic Appointment and Graduate Student Employment in the Graduate Policies and Procedures Handbook for definitions, responsibilities, and requirements related to teaching titles.

4) Dissertation Plan: In accordance with University of California policy, a minimum of four semesters in academic residence is required prior to awarding the Ph.D. Typically, a longer period of study, four to six years, is required for completion of all degree requirements. It is the responsibility of the Graduate Group to inform the

student upon admission to the program of the expected degree time. All graduate students are considered resident graduates not candidates for a degree, unless admitted to candidacy after completion of all candidacy requirements and approval by the Graduate Division after formal application. A student advances to candidacy for the Ph.D. upon successfully demonstrating a high level of scholarship at the Ph.D. level, and upon completing all preparatory work and demonstrating readiness to proceed to the dissertation phase, which includes an oral defense of the dissertation proposal.

5) Advising Structure and Mentoring:

The Graduate Advisor is the faculty member who supervises the student's research and dissertation. The Graduate Chair, who is appointed by the Vice Provost and Dean of Graduate Education, is a resource for information on academic requirements, policies and procedures, and registration information until the Doctoral Committee is formed. The Graduate Group Coordinator assists students with identifying appointments and general university policies. The Mentoring Guidelines can be found at the following link, [UCM Mentoring Guidelines](#).

6) Doctoral Degree Committees:

a) Qualifying Examination Committee:

The Qualifying Exam Committee is comprised of two faculty members. The graduate group chair in consultation with faculty nominate faculty to serve on the Qualifying Examination Committee based on area expertise. These nominations are submitted to the Graduate Division for formal appointment in accordance with Graduate Council policy. The Committee shall approve the subject and pass on the content of examination. Usually one of the committee members directs the examination. At this time the Qualifying Exam areas include: Education; Gender/Sexuality*; Health; Immigration; Race/Ethnicity; Social Movements/Political Sociology*

*Either/Or option is available with faculty consultation.

b) Candidacy Committee:

The student, in consultation with graduate advisor, nominates three faculty to serve on the Candidacy Committee. These nominations are submitted to the Graduate Group Chair for formal appointment in accordance with Graduate Council policy. The Candidacy Committee, in consultation with the graduate student and the faculty advisor, selects faculty to serve on the three-member Doctoral Committee. The Committee ordinarily will review an outline of the proposed dissertation project, and will determine by oral examination (the Dissertation Proposal Defense) the student's competence in that area. When, by unanimous vote, the Committee decides the student is qualified for the dissertation phase, it shall recommend advancement to candidacy to the Graduate Council via the Vice Provost and Dean of Graduate Education.

c) Doctoral Committee:

The Doctoral Committee is a three-member committee selected by Candidacy Committee, in consultation with the graduate student, the doctoral committee chair (usually the graduate advisor), and the Graduate Group Chair; the Doctoral Committee is formally identified on the Advancement to Candidacy for the Degree of Doctor of

Philosophy Form. The majority of the committee should be affiliated with the program. The role of the Dissertation Committee is to advise the doctoral student on the research topic and methods, and then to review the final completed dissertation for acceptance. The Doctoral Committee Chair should determine the desires of the individual members regarding assistance with the research and dissertation review at the time the doctoral committee is constituted. Students are expected to meet with the Chair of their doctoral committee regularly. Doctoral committee members are expected to read and comment on a dissertation within (indicate time lapse) from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the doctoral committee. This timeline must allow all doctoral committee members enough time to fulfill their responsibilities within the indicated deadline.

7) Advancement to Candidacy:

Before advancing to candidacy for a doctoral degree, a student must have satisfied all requirements set by the graduate program, must have maintained a minimum GPA of 3.2 in all course work undertaken, and must have passed unanimously the Qualifying Examination before the Qualifying Exam Committee appointed to administer that examination. The Application for Qualifying Examination available on the Graduate Division website must be submitted one month prior to the proposed examination date. Students must be in good academic standing and registered for the semester in which the examination is held. The Qualifying Examination Committee conducts the exam and submits results to the Graduate Division using the Qualifying Examination Report Form.

Normally, students advance by the end of the seventh semester. The student must file the appropriate paperwork (Advance to Candidacy for the Degree of Doctor Philosophy Form and Conflict of Interest Form) with the Graduate Division and pay the candidacy fee in order to be officially promoted to Ph.D. Candidacy.

8) Qualifying Examination Requirements:

- a) Qualifying Examination
 - i. General Information

All students will complete all course requirements before taking their Qualifying Examination. Passing this exam, in addition to passing the Dissertation Proposal Defense, makes the student eligible for advancement to candidacy. The qualifying exam should be taken by the 6th semester and no later than the beginning of the 7th semester after admission to the Ph.D. program.

The Qualifying Examination should evaluate both general preparedness in the discipline, and specific competence to pursue the proposed dissertation topic. In its deliberation, the Committee ordinarily will review the student's academic record, preliminary examinations and evaluations by other faculty. The Committee may conduct any other examination it deems appropriate. Following its formal appointment, the Committee is free to adopt whatever procedures it deems appropriate to conduct the Qualifying Examination for candidacy, subject to the rules of the program and

those specified below:

- Administration of the Candidacy Examination must conform to the policies established by the Graduate Council.
- The student must be given adequate notice of the content, form and time of the examination.
- The Committee must meet to decide upon the procedures to be followed, and the student given an opportunity to comment upon the selected procedures.

ii. Conduct of the Exam

Although the formal Qualifying Examination for candidacy ordinarily is conducted over 72 hours, the Committee may meet intermittently over a longer period, and may decide to reexamine the student on one or more topics after a specified interval. The Committee must report to the Graduate Council via the Vice Provost and Dean of Graduate Education within 45 days. Upon completion of the qualifying examination and all other Graduate Group requirements for Advancement to Candidacy, the results should be submitted to the Graduate Division on the Qualifying Examination Report Form. The Qualifying Examination Report Form must be signed by all committee members at the time the candidacy examination is concluded and submitted even if the student failed the examination. Prior to convening a student committee for advancement to candidacy exam, the Faculty Advisor, the Graduate Group Chair, and the graduate student must sign the Statement on Conflict of Interest form that is included in the Advancement to Candidacy for the Degree of Doctor of Philosophy form. If the unanimous recommendation of the Committee is favorable, and the student passes the Dissertation Proposal Defense, the student must pay the current advancement to candidacy fee to the campus Cashier's Office that will validate the advancement to candidacy form. The student must then submit the advancement to candidacy form to the Graduate Division. The candidate and graduate program will be notified of formal advancement and the appointment of a Doctoral Committee. Advancement to Candidacy begins with the first academic term following completion of all requirements (including submission of all forms).

iii. Outcome of the Exam

Before voting upon its recommendation for or against passing the Qualifying Exam, the Committee, as a whole, may elect to meet with the student, and any member of the Committee will have the right to pose appropriate questions to the student. The committee, having reached a unanimous decision, shall inform the student of its decision to:

- Pass- A student has passed when the Qualifying Examination Committee unanimously votes that the student passed the entire examination with scholarship that is at least acceptable.

The committee must report to the Graduate Council via the Vice Provost and Dean of Graduate Education within 45 days. If agreed unanimously by the committee the student may be allowed to make minor modifications prior to submitting the results of the examination.

- Fail- A student has failed when the Qualifying Examination Committee votes unanimously that the student failed the entire examination. The second examination may have a format different from the first, but the substance should remain the same under most circumstances. A student whose performance on the second attempt is also unsatisfactory, or who does not undertake a second examination within a reasonable period of time, is subject to academic disqualification based on unsatisfactory progress, in keeping with [UC Merced Graduate Policies and Procedures Handbook](#).
- A third examination may be given only with the approval of the Graduate Group committee and the Vice Provost and Dean of Graduate Education. A student whose performance on the third attempt is also unsatisfactory, or who does not undertake a third examination within a reasonable period of time, is subject to academic disqualification.
- Partial Pass- A student has partially passed when the Qualifying Examination Committee votes unanimously that the student passed some components but failed others. In this instance, the following apply:
 - The student has the option of taking a second examination as detailed in above on the components failed; and
 - The chair of the committee must write a letter to the student, with a copy to the Graduate Division, conveying the information about the student's performance (pass, fail, or partial pass) on each of the components covered during the examination.

If a unanimous decision takes the form of "Partial Pass" or "Fail", the Chair of the Qualifying Exam Committee must include in its report a specific statement, agreed to by all members of the committee, explaining its decision and must inform the student of its decision.

9) Dissertation Requirements:

a. Final Examination

A final examination, or oral defense, is required by the graduate program, the Doctoral Committee supervises that examination, the focus of which is the content of the doctoral dissertation. Ordinarily, the final examination will be given just prior to the completion of the dissertation and while the student is in residence during a regular academic session. Administration of the final examination is subject to the policies of the Graduate Council

governing critical examinations. Upon completion of the final examination and approval of the dissertation, the Doctoral Committee recommends, by submission of the Report on Final Examination of the Ph.D. Degree Form, the conferral of the Ph.D. subject to final submission of the approved dissertation for deposit in the University Archives. The Committee recommendation must be unanimous.

b. General Requirements

The submission of the dissertation is the last step in the program leading to the award of an advanced degree. All dissertations submitted in fulfillment of requirements for advanced degrees at UCM must conform to certain University regulations and specifications with regard to format and method of preparation. The UCM Thesis and Dissertation Manual are available at the Graduate Division website. The Doctoral Committee certifies that the completed dissertation is satisfactory through the signatures of all Committee members on the signature page of the completed dissertation. The doctoral committee chair is responsible for the content and final presentation of the manuscript.

Filing instructions are found in the UCM Thesis and Dissertation Manual. The advanced degree manuscript is expected to be submitted by the deadline in the semester in which the degree is to be conferred. The end of the semester is the deadline for submitting dissertations during each semester. Those students who complete requirements and submit dissertations after the end of the semester and prior to the start of the subsequent semester will earn a degree for the following semester, but will not be required to pay fees for that semester. In accordance with UC and UCM policy, all approved thesis/dissertation manuscripts automatically become available for public access and circulation as part of the UC Libraries collections.

c. Dissertation

The research conducted by the student must be of such character as to show ability to pursue independent research. The dissertation reports a scholarly piece of work of publishable quality that solves a significant scientific problem in the field and is carried out under the supervision of a member of the program while the student is enrolled in the program. The chair of the doctoral committee must be a member of the program and must be immediately involved with the planning and execution of the experimental work done to formulate the dissertation.

Students should meet regularly with their dissertation committee. The dissertation must be submitted to each member of the dissertation committee at least one month before the student expects to make the defense. Informing committee members of progress as writing proceeds helps the members to plan to read the dissertation and provide feedback. The dissertation must be approved and signed by the dissertation committee before it is submitted to Graduate Division for final approval.

10) Sources of Funding:

Funding includes opportunities for Teaching Assistantships as well as other funding opportunities as offered by Graduate Division and the graduate group (e.g., via competitions run through the Executive Committee), external funding opportunities, and individual professors.

Following advancement to candidacy, doctoral students who are not California residents will have their Nonresident Tuition reduced by 100 percent for a maximum of three consecutive calendar years. Any such student who continues to be enrolled or who re-enrolls after receiving the reduced fee for three years will be charged the full Nonresident Tuition that is in effect at that time.

11) Leaving the Program Prior to Completion of the PhD Requirements:

A student admitted for the Ph.D. degree, which, in the judgment of the unit's graduate affairs committee should not continue past the master's degree, must be notified in writing by the Graduate Group Chair of the Graduate Group offering the degree. A copy of the letter must be sent to the Vice Provost and Dean of Graduate Education. In some cases a doctoral student may choose to leave the program with a master's degree only. It is the responsibility of the Graduate Group unit to notify the Graduate Division via the Change of Degree form so that the student's record may be updated to reflect the student's degree status. This notice must include the student's written permission to have his/her degree objective changed officially from doctorate to master's.

D. General Information

1) PELP, In Absentia and Filing Fee status.

Information about PELP (Planned Educational Leave Program), In Absentia (reduced fees when researching out of state), and Filing Fee status can be found in the Graduate Group Policies and Procedures Handbook available on Graduate Division.
